

Heavy Duty LED Warning Beacon

UR-1A701WB-AMB

Specification

- CE, ECE R10, ECE R65 TA1, SAE J845 Class 1, CISPR 25 Class 3 certified
- Multi-working voltage: DC 12-48V
- Top cover with fresnel design
- 6 different flash patterns for different use, used on engineering vehicles widely
- Aluminum base with strong magnet available to use at 70mph
- Reverse polarity protection
- With memory function
- Tough polycarbonate lens with UV resistant
- IP67 rating make it durable
- 3 different mountings options: Magnet, 3 bolts and Pole
- -30°C to +60°C operation temperature

Potted PCB

Cigar Plug
